contraceptives by pharmacists

Standing Orders

2023

Effective: 12/04/2023

**Division of Public Health Standing Orders:
Prescribing, dispensing, and administering of contraceptives by pharmacists**

BACKGROUND

The Delaware Division of Public Health, in accordance with the enacted amendments to Title 16 and Title 24 of the Delaware Code relating to pharmacists dispensing and administering contraceptives, creates this standing order to allow duly licensed and trained pharmacists in the State of Delaware to dispense contraceptives and to dispense and administer injectable hormonal contraceptives to a patient.

SCOPE

This standing order applies to all pharmacists duly licensed under Chapter 25 of Title 24 of the Delaware Code and who have been trained to prescribe/dispense/administer contraceptives.

DEFINITIONS

“Contraceptives” means medications and devices approved by the Food and Drug Administration for the purpose of preventing pregnancy.

“Pharmacist” means an individual licensed under Chapter 25 of Title 24 of the Delaware Code and who has completed and is current with training in contraception use as outlined by the DE Board of Pharmacy

PROCEDURES

1. Screening and evaluation. Using the Center for Disease Prevention and Control’s (CDC) [“Medical Eligibility Criteria”](#), the pharmacists shall screen the patient for medical eligibility before dispensing contraceptives
 - a. Following Medical Eligibility Screening, the patient may select any product that falls under Category 1 or 2 based on their health status.
2. Prescribing, Dispensing, and administration. For persons who meet the medical eligibility criteria, the pharmacist may: Initiate, change, or terminate contraceptive therapy.
 - a. The pharmacist may prescribe and/or dispense up to twelve (12) months’ supply of desired non-injectable contraception for which the patient meets eligibility criteria with the exclusion of the following:
 - i. Intrauterine devices
 - ii. Subdermal hormonal implants
 - b. For patients meeting the medical eligibility criteria, the pharmacist may prescribe and administer desired injectable contraception.
