- ❖ Examples of baked goods that are considered not potentially hazardous include, but are not limited to, cookies, cakes, brownies and fruit filled pies. Cakes and pies must be sold as whole units, and not cut or portioned on site for individual service. All foods must be adequately protected and handled to prevent contamination.
- ❖ Examples of foods considered to be potentially hazardous may not be offered for sale or service under this exemption are those that contain custards or creams, certain pies such as pumpkin, and any item requiring refrigeration to ensure food safety.
- ❖ Consumer is informed by a clearly visible placard at the sales or service location
