1 Project Overview

1.1 Introduction

This is a Request for Proposal (RFP) for Transition Coordinator Services issued by Delaware Department of Health and Social Services, Division of Medicaid & Medical Assistance (henceforth referred to as “The Division”).

The Mission of the Division of Medicaid & Medical Assistance is to improve health outcomes by ensuring that the highest quality medical services are provided to the vulnerable populations of Delaware in the most cost effective manner. Through innovation, enhance medical coverage to meet the diverse needs of Delawareans, is the vision of the division.

The Division is committed to the development and delivery of community based services, which maximize independence through individual choice in the least restrictive environment possible enabling individuals to continue living active and productive lives, and protecting those who may be vulnerable or at risk.

Transition Coordinator Services is an important component of the *Finding a Way Home* program, Delaware’s Money Follows the Person Demonstration project, which is operated by the Division. The program provides transition coordinator services and other approved services for adults who need intensive supportive services to move out of institutional long-term care facilities to live in their own homes and other community settings.

Additional information about the Division may be found on the Division’s website at www.dhss.delaware.gov/dmma.

1.2 Background and Purpose

The Division needs to contract for the provision of Transition Coordinator Services on a statewide basis. The purpose of this RFP is to procure Transition Coordinator Services for approximately 30 eligible Delawareans for the period from **October 1, 2009** to **September 30, 2010**.

This program is funded through a Federal grant and state matching funds through September 2011.

This program became operational September 2009 and is anticipated to provide services to approximately 100 individuals over the course of the project.

The primary goal of Transition Coordinator services is to provide intensive supportive services to individuals interested in transitioning from a qualified institutions (public and private Medicaid enrolled nursing facility, Intermediate Care Facility for the Mentally Retarded – ICF/MRs - and the Delaware Psychiatric Center - DPC) to qualified home and community based settings with the provision of services and supports that meet those individuals' needs and preferences.

Transition Coordinators conduct informational outreach sessions regarding the program at qualified institutions. They also educate potential program candidates regarding the program and services available and assist those who meet the program criteria in transitioning to the community. Transition Coordinators work closely with Home & Community Based Waiver case managers within the Divisions of Services for Aging & Adults with Physical Disabilities (DSAAPD) and Developmental Disabilities Services (DDDS) to assess program candidates and establish a transition plan that supports them in the community in a manner that is consistent with their own personal lifestyles and preferences.

The Provider agency will employ, either directly or by contract, one or more qualified individuals who have the education, training and experience specified in this RFP, to be Transition Coordinators and will assign to the Transition Coordinators the appropriate functions and activities.

2 Scope of Work

The Division engages in many activities to support its mission, including contracting with outside vendors to provide a wide range of home and community-based services. As noted in the previous section, the purpose of this RFP is to procure Transition Coordinator Services for eligible Delawareans for the period from **October 1, 2009 to September 30, 2010**.

DMMA has developed "service specifications" for Transition Coordinator Services. These specifications define the scope of work for this service. They include service descriptions, client eligibility, standards for service, monitoring requirements, and other relevant information. **The specifications for Transition Coordinator Services are included in Attachment A.** These specifications will provide important guidelines for the development of your proposal. Please read them carefully.

In developing your proposal, you will be expected to explain how you will deliver the services, the qualifications of your staff, and your budget.

It is expected that the work plan, staff qualifications and budget will be consistent with the scope of services outlined in the service specifications in Attachment A. Instructions for completing these and other components of the proposal are provided in Section 5 of this RFP.
