

IMP 001

Drug Tests

Until July, 2012, the Delaware law for facilities required as part of the hiring process that each facility send DLTCRP a copy of the drug test report on each new employee.

That law changed. The law now says that DLTCRP must receive **confirmation of the drug test**. It is no longer necessary to send DLTCRP the actual results.

Starting immediately, facilities need only e-mail the Division at Drugtestconfirm@state.de.us .

The Subject line of the e-mail must contain 1) the name of the employee and 2) the date of the drug test.

The text of the e-mail must state:

Prior to employing the individual named in the subject line of this message, a drug test was obtained. The test results are on file and available for inspection.
