ADVANCE HEALTH-CARE DIRECTIVE OF
ABOUT THIS FORM

This form is a legal document that lets you name another individual or individuals as your “agent(s)” to make health-care decisions for you if you become incapable of making your own decisions (Part 1). It also allows you to communicate your wishes -- ahead of time -- regarding your care near the end of life (Part 2). If desired, you may also make choices about being an organ donor (Part 3).

IMPORTANT: Your agent will not be asked to make any decisions as long as you are capable and can communicate for yourself. You always have the right to give instructions about your own health care if you are able. However, if you do not write down your wishes about your health care in advance, and if you later become unable to understand, make, or communicate those wishes, they may not be honored because they may remain unknown to others.

USING THIS FORM

Part 1 of this form is a power of attorney for health care. You can name one person as your agent for health-care decisions and several alternates, if the primary person you designate is unable to serve or is not available.

Part 2 of this form provides you with the ability to give specific instructions regarding whether or not you wish to receive life-sustaining medical measures if you are ever declared “terminally ill” or “permanently unconscious” or to have a "serious illness or frailty.” There is also additional space in Part 2 for you to write out any additional instructions regarding your medical care.

Part 3 of this form lets you express an intention to donate your body, organs and/or tissues following your death, if you so choose.

HOW TO SIGN THIS FORM CORRECTLY SO THAT IT IS VALID

After you have finished filling this form out, sign and date it in front of two (2) qualified witnesses. It does not need to be notarized to be effective. You will find the signature page following Part 3. Your witnesses will also have to sign this form on the last page, following your signature.

PART 2: END – OF – LIFE DECISIONS

This form offers you three treatment options to guide end-of-life decisions if you are diagnosed with a “Qualifying Condition.”

"Qualifying condition" means the existence of 1 or more of the following conditions in the patient, certified in writing in the patient's medical record by the attending physician and by at least 1 other physician who, when the condition in question is "permanently unconscious" shall be a board-certified neurologist and/or neurosurgeon:

(1) "Permanently unconscious" or "permanent unconsciousness" means a medical condition that has existed for at least 4 weeks and that has been diagnosed in accordance with currently accepted medical standards and with reasonable medical certainty as total and irreversible loss of consciousness and capacity for interaction with the environment. The term includes, without limitation, a persistent vegetative state or irreversible coma.

(2) "Terminal condition" means any disease, illness or condition sustained by any human being for which there is no reasonable medical expectation of recovery and which, as a medical probability, will result in the death of such human being regardless of the use or discontinuance of medical treatment implemented for the purpose of sustaining life or the life processes.

(3) "Serious illness or frailty" means a condition based on which the health-care practitioner would not be surprised if the patient died within the next year.

It is important to read each option fully before you choose your desired option. Please note that you are able to choose only one option, although you will have the opportunity to write-in any other medical instructions.

After you have read all three options, write your initials on the line next to the option you have selected that represents your choice for treatment instructions. You may only select one option. Some options include additional choices. If there are additional choices you wish to make within an option, write your initials next to those choices.
