

Mr. Lee was almost a victim of fraud...

Mr. Lee has Medicare. One evening he received a phone call from a woman who identified herself as a Medicare representative. The woman on the phone told Mr. Lee she could save him hundreds of dollars each month by signing him up for the new Medicare Prescription Drug Coverage. Mr. Lee pays over \$300 in drug costs each month, so he was eager to join. When the woman said she could sign him up over the phone and asked for Mr. Lee's Medicare and checking account numbers, he gave them to her.

After sleeping on it, Mr. Lee realized he had made a mistake by giving out his personal information and contacted his local SMP. The SMP helped Mr. Lee contact his bank to close his account and reported the crime to the police and Medicare.

**... thanks to his SMP,
he was not.**
