Highmark Delaware Primary Care Collaborative

November 28, 2018

Our Commitment To Delaware

- Highmark Delaware is the only carrier participating on the Delaware Marketplace and has invested approximately \$50 million in the form of subsidized losses since inception (January 2014).
- Serve over 450,000 members across all of these populations
- Highmark Delaware developed and implemented a robust Medicaid Managed Care product (DHOP) in 2015 to serve Delawareans and fill a critical void.
- Highmark offers the 2nd largest Primary Care focused Risk Based Contract in the country, True Performance, which involves 1.8M attributed members.
- Highmark Delaware and its employees have participated actively in the State's SIM & DIN program since their inception.
- Highmark Delaware has contributed over \$18,000,000 since 2012 to support over 200 health-related initiatives, programs and organizations within Delaware.
- Part of the broader \$18.2B Highmark Health enterprise, which serves 5.2M health plan members and over 24M members through our integrated delivery network, diversified companies and technology solutions business.

Six trends shaping the market¹ and Highmark's strong position for the future Trends Highmark's position

Evolving consumer expectations

Personalized engagement through data-driven consumerism capabilities and innovative vendor partnerships

Big data proliferation

Market-leading data and analytic capabilities

Growing government business

Large and influential player in the Medicare, Medicaid and ACA markets

Cross-industry, vertical integration accelerates

Only Blue integrated delivery and financing system; many large, complex provider partnerships

The rise of pharmaceutical management

Proven pharmacy management programs (including specialty drugs) yielding lower trends than leading PBMs

The evolution towards value-based care

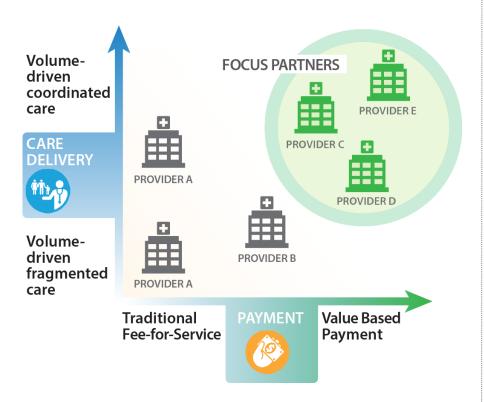

Large, successful VBR programs and enabling capabilities

¹ "State of the Blues: Six Trends Shaping the Market," Oliver Wyman.

Provider partnerships are the cornerstone of Highmark's strategy

Aligning care delivery and incentive payments

Highmark's provider partnership strategy

Highmark will jointly develop value-based programs and products based on provider readiness and market needs

Focus on keeping providers independent and keeping care local and affordable

Programs will evolve as providers take on increasing risk for effectively managing care

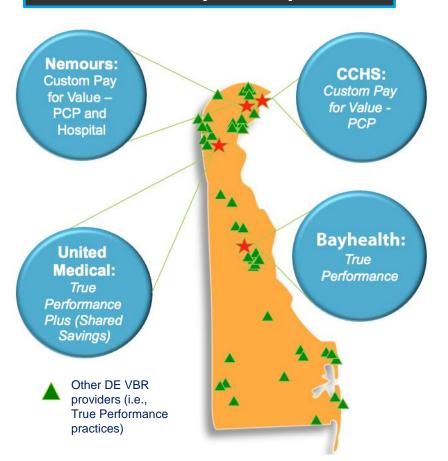

Ultimately, there will be winners and losers as some providers adapt and succeed, while other resist the movement towards value

Moving forward, we will focus on transforming care delivery with willing and able partners, rather than with every provider

Highmark, in partnership with other Delaware healthcare providers, has ignited an aggressive agenda forging a new path in care delivery and reimbursement.

Partnership Examples

Delaware VBR Future State

- Continued focus on aligning incentives at every level of the health care continuum (PCP, Specialists, Hospitals, Post-Acute)
- Collaboration with State and Local stakeholders on creating & managing a Spending Benchmark while rewarding the highest quality outcomes
- 3. Continued focus on **advancing VBR** in Medicaid, Commercial, and ACA lines of business
- 4. Introduce quality metrics that **focus on societal and environmental factors of health** to ensure a holistic approach to care delivery
- Create member-level incentives to promote appropriate site of care, intervention, and preventive engagement
- Intensify focus on telehealth initiatives to alleviate access issues and increase efficiency across the continuum
- 7. Increase **member-level knowledge** of VBR to ensure growth of VBR is supported by all stakeholders
- 8. Collaborate more with the provider community to develop programs that **center around the patient** and support all parties equitably

Primary Care Needs in Delaware

Delaware Primary Care Health Needs Assessment 2015

Figure 19. Number of Persons per Primary Care Physicians, in Delaware, by census county division, 2013

Primary Care Designated Shortages if these criteria are met:

- The area is a rational area for the delivery of primary medical care services.
- 2. One of the following conditions prevails within the area:
 - The area has a population to full-time-equivalent primary care physician ratio of at least 3,500:1.
 - The area has a population to full-time-equivalent primary care physician ratio of less than 3,500:1 but greater than 3,000:1 and has unusually high needs for primary care services or insufficient capacity of existing primary care providers.
- 3. Primary medical care professionals in contiguous areas are over utilized, excessively distant, or inaccessible to the population of the area under consideration.

Next Steps:

 Continue discussions with Delaware health systems and large medical groups to accelerate the migration to value-based reimbursement for both Medicaid and Commercial business.

- Continue partnering with Delaware health systems and medical groups to become Blue Cross Blue Shield Centers of Excellence.
- Will remain focused on our customers through the provision of access to high-quality, cost-effective health care and the tools and programs to help improve overall health
