HEALTHCARE RESOURCE GUIDE

## Making Healthcare Accessible

If you or someone you care about is one of the more than 105,000 uninsured Delawareans, you know that sometimes access to the healthcare system seems complicated. But, healthcare should never be beyond the reach of those who need it.

This resource guide was created to help people in Delaware without health insurance find their way to better health by—

- ✓ finding appropriate medical care
- ✓ gaining access to prescription assistance programs
- ✓ getting transportation to and from medical appointments

## Start Here

If you need healthcare, but do not have insurance coverage, you can start getting answers to your questions by calling the Delaware Helpline toll-free at 1-800-464-HELP (4357). (If calling from outside Delaware, the toll-free number is 1-800-273-9500.) Representatives are there to take your call Monday – Friday from 8:00 a.m. to 5:00 p.m. and provide you with information and referrals to state agencies and community resources. Additional information about the support provided by the Delaware Helpline can also be found by visiting [www.delawarehelpline.org](http://www.delawarehelpline.org).

**Don't wait! Call the Delaware Helpline at  
1-800-464-HELP(4357) or visit [www.delawarehelpline.org](http://www.delawarehelpline.org)**

## Healthcare Options Across Delaware

- **Community Healthcare Access Program (CHAP)**—determines eligibility for and provides a link to low-cost or no-cost medical care through statewide community health centers, the Voluntary Initiative Program (VIP) and hospitals throughout Delaware.

Call 1-800-996-9969 and select option “3” from the menu.

- **Christiana Care Health System**—one of the region’s largest not-for-profit healthcare providers serving the people of Delaware with centers of excellence in cardiology, cancer, women’s health services and the highest intensity Level-1 trauma care and Level-3 neonatal intensive care. Christiana Care’s presence across Delaware involves operating two hospitals, transitional care services, a network of primary care physician offices and an extensive range of outpatient and home health services.

Call 302-428-4100 or visit [www.christianacare.org](http://www.christianacare.org).

- **Community-based Healthcare Facilities**—located throughout Delaware. Included in this group are federally qualified health centers that offer comprehensive health care services to all, regardless of ability to pay, through sliding fee scales based on family size and income. Other community-based programs offer health care services through volunteer providers for free or at reduced prices.

Refer to the enclosed chart for a list of program services, locations and contact information.

- **Medicaid and Delaware Healthy Children Program**—Medicaid is a jointly funded federal/state program to provide healthcare coverage to certain individuals and families with low-incomes. Likewise, the Delaware Healthy Children Program (DHCP) is Delaware’s version of the State Children’s Health Insurance Program (SCHIP) and provides health insurance to low-income children whose family income is too high to qualify for Medicaid. DHCP provides affordable monthly premiums and covers children up to the age of 19 with a wide range of medical services. DHCP eligibility is based on a family’s gross monthly income and number of family members in the home.

Call the Health Benefits Manager at 1-800-996-9969 and select option “1” from the menu or visit [www.dhss.delaware.gov/dhss/dmma](http://www.dhss.delaware.gov/dhss/dmma) for information.

- **Nemours**—operates more than a dozen nonprofit pediatric health centers in Delaware and southeastern Pennsylvania. A full range of healthcare services, including primary care, neonatal intensive care, inpatient hospital care, orthopedics, cardiology and surgery, are offered in local communities in the tradition of the renowned Alfred I. duPont Hospital for Children in Wilmington. Additionally, low-income Delaware seniors can access the Nemours Health Clinic for key health services such as dental care, eye care and eyeglasses, hearing tests and hearing aids.

Call 1-888-533-3543 for information about the pediatric health centers and 1-800-763-9326 (Milford office) or 1-800-292-9538 (Wilmington office) for information about the Nemours Health Clinic or visit [www.nemours.org](http://www.nemours.org).

- **Voluntary Initiative Program (VIP)**—managed by the Medical Society of Delaware’s nonprofit Delaware Foundation for Medical Services. More than 500 primary care doctors and specialists participate in the statewide VIP network and provide care to eligible uninsured Delawareans referred to them through CHAP.

## Bringing Together Helpful Resources

Whether it is help finding appropriate medical care, obtaining access to prescription medicines, or getting transportation for medical appointments, the following chart puts important information at your fingertips for quick and easy reference.

Please see the following pages for important health information listed by county.

	Dental	Geriatric (Seniors)	Gynecological (Women's Health)	Immunizations	Lab Services	Medicaid Enrollment Assistance	Mental Health	Pediatric (Children)	Pharmacy Service	Podiatry (Foot Care)	Pre-natal (Healthy Baby)	Primary Care (Family Medicine)	Surgery	Vision (Eye Care)
