If the Regulatory Authority determines that a food establishment is operating without a valid permit; that one or more conditions exist which represent an Imminent Health Hazard; or that serious violations, repeat violations, or general unsanitary conditions are found to exist, administrative action may occur. Administrative action will be conducted in accordance with the law.

(A) Operation without a Permit

(1) Immediate Closure Order. If a food establishment is found operating without a valid permit as required by subpart 8-301.11 of this Code, the Regulatory Authority shall order the facility immediately closed.

(2) Notice of Closure. The closure shall be effective upon receipt of a written notice by the person in charge of the food establishment or an employee of the food establishment. A closure notice statement recorded on the inspection report by the representative of the Regulatory Authority constitutes a written notice.

(3) Duration of Closure. The food establishment shall remain closed until a permit application; applicable fees and any required plans have been received and approved by the Regulatory Authority.

(B) Imminent Health Hazard(s)

(1) Permit Suspension without Hearing. If some condition is determined to exist in a food establishment, which presents an imminent health hazard to the public, the Regulatory Authority may suspend the operating permit of the food establishment without a prior hearing. The suspension
shall be effective upon receipt of written notice by the person in charge of the food establishment or an employee of the food establishment. A suspension statement recorded on the inspection report by the Regulatory Authority constitutes a written notice.

(2) Hearing Request. The permit holder of the food establishment may request, in writing, a hearing before the Regulatory Authority at any time during the period of suspension, for demonstrating that the imminent health hazard(s) no longer exist. The request for hearing shall not stay the suspension.

(3) Discontinued operation for the mitigation of an imminent health hazard requires a food establishment to remain closed for at least twenty-four (24) hours.

(C) Serious Violations, Repeat Violations and General Unsanitary Conditions. When conditions exist in a food establishment that represent serious violations, repeat violations or general unsanitary conditions, the Regulatory Authority may initiate a corrective action plan or schedule a hearing.

8-603 Agency Emergency Actions

8-603.10 Examination of Food.

Food may be examined or sampled by the Regulatory Authority as often as necessary for enforcement of this Code.

8-603.20 Wholesome and Free from Spoilage.

All food shall be wholesome and free from spoilage. Food that is spoiled or unfit for human consumption shall not be kept on the premises. The established administrative procedures for the implementation and enforcement of the provisions of Chapter 33 of Title 16 of the Delaware Code, relating to the embargo of misbranded or adulterated food, and penalties shall be applicable to this subpart.

8-604 Penalties

8-604.10 Operation in Violation of Code.

Any person (or responsible officer of that person) who violates a provision of this Code, and any person (or responsible officer of that person) who is the holder of a permit or who otherwise operates a food establishment that does not comply with the requirements of this Code
shall be subject to the provisions of Section 107 of Title 16 of the Delaware Code.

8-604.20  Refusal, Failure or Neglect to Comply with Order of the Regulatory Authority.

Any person (or responsible officer of that person) who violates a provision of this Code, and any person (or responsible officer of that person) who is the holder of a permit or who otherwise operates a food establishment that refuses, fails or neglects to comply with an order of the Regulatory Authority shall be subject to an administrative penalty of not less than $100 and not more than $1,000, together with costs.

8-604.30  Injunction.

The Regulatory Authority may seek to enjoin violations of this Code.

8-604.40  Public Notification.

A placard, as provided by the Division of Public Health, shall be prominently displayed at all entrances of food establishments that have failed to obtain a valid permit or have a permit that is suspended, revoked, or expired. This placard shall only be removed by order of the Regulatory Authority.
